

The **Fulbright Specialist Program**, a program of the U.S. Department of State, provides a **unique opportunity for institutions across the globe to host a leading U.S. academic or professional.**

Specialists and host institutions work together to implement a two- to six-week project. Host institutions design project goals and activities that will **exchange knowledge and promote long-lasting collaboration** between individuals and institutions in the United States and around the world.

**This has been a highly rewarding and enriching opportunity for us to have the benefit of direct engagement and input by a very senior expert on our activities. [The Fulbright Specialist] program is ideal in enabling these high impact visits.**
